

Functional table inspired by nature

River collection

OUR VISION

People have always wanted to live in a harmonious, ecological and modern environment. Being closer to nature, themselves and enjoy life.

Is it possible to bring nature in doors? Yes! And what better way, than with a Uudwood table.

What Uudwood tables consist of?

SOLID WOOD

Hard in character, durable in use

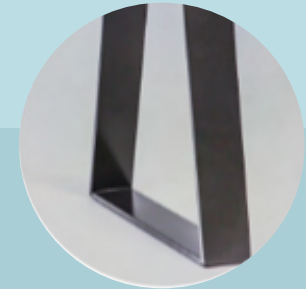

In nature everything changes – rivers flow, trees grow. We admire and respect that. In my opinion, taking a tree from nature and making it in to a practical object, we are giving it a second life. It's the best way to preserve the values of nature..

TEMPERED GLASS

Durable and safe

Glass – It's transparency and honesty. It's the main guide motive through the entire manufacturing process.

METAL OR WOOD STANDS

Substantial and stable

A strong foundation is a sign of stability and reliability. Let's make the foundation according to your wishes. This position is perfect for a fantasy flight. Honestly, this is a great opportunity to fantasize together!

COFFEE TABLE

Round shape

JUDWOOD

Live edge coffee table with tempered glass inlay brings nature presence in our mind and feelings. This practical and functional piece of art will be a great improvement for contemporary living room interior. It is made from oak or ash tree and unique wood grain makes it unrepeatable. Round is the most safe shape for children and is absolutely practical.
